

# Implementing Application In The Web

## Create UI To Interact With Application

### Registration :

The screenshot displays a web browser window with multiple tabs. The active tab shows a registration page for a 'Personal Expense Tracker' application. The page has a dark background with a central white box containing the form. The form includes fields for 'Name', 'Email', and 'Password', followed by a yellow 'Register' button. Below the button is a link for users who already have an account.

Login :

The screenshot shows a web browser window with the URL 127.0.0.1:5000. The page is titled "Personal Expense Tracker" and features a "Log In" section. It includes input fields for "Email" and "Password", a yellow "Login" button, and a link to "Register" for users who do not have an account. The browser's tab bar shows several open tabs, including "IBM Cloud", "IBM-EPBL/IBM-Proj...", "Meet - zoz-qoo...", "Email Delivery, API, M...", "IBM-Project-22676-1...", "IBM-Project-13035-1...", and "Home".

Dashboard :

The screenshot displays the "Personal Expense Tracker" dashboard. At the top, there is a navigation bar with links for "Dashboard", "Statistics", and "Logout". The main content area is divided into three columns. The left column contains three expense category cards: "Medical Expenses" with a value of ₹0, "House Expenses" with a value of ₹13500, and a partially visible "Education Expenses" card. The middle column, titled "Monthly Limit", shows an "Expense Limit : 200000" and an "Available Limit : 46500". It includes input fields for "Set Amount" and "Change Amount", each with a corresponding yellow button. The right column, titled "Add Expenditure", features input fields for "Transaction", "Transaction Type", "Amount", and a date field (mm/dd/yyyy), followed by a yellow "Add" button. The browser's tab bar at the top shows the current tab as "Personal Expense Tra..." and the URL as 127.0.0.1:5000/tracker.
